

BEST PRACTICES

- All truckers must have hard copies of their paperwork. Make sure to keep a copy for your own reference in the yard.
- Weather permitting, untarp your load while you are waiting in the check in lanes.
- Be aware that in-house yard trucks may be traveling against the flow of OTR traffic. This DOES NOT mean you may also travel against the terminal traffic pattern.
- If you feel you have been loaded incorrectly, return to the check-in trailer and ask to speak with a manager. DO NOT LEAVE THE TERMINAL.
- Stand behind your trailer to spot the forklift. Do not stand on your trailer while being loaded.

OTR RULES

- **Self propelled cargo is self serve:** A pier driver can assist for an additional charge. If you require one, advise at check in.
- **You are responsible for confirming the accuracy of your load.**
- **Obey terminal signage:** This includes stop signs, intersections, speed limits and traffic routing signage.
- **Do not block intersections.**
- **Please follow terminal traffic pattern:** The traffic flow for OTR drivers is represented on the attached map. Note that it represents a one-way traffic pattern.
- **No pedestrian traffic permitted on the container yard:** Do not break down RGNs or pull into the yard to chain down.
- **Proper PPE required:** Safety vest, boots with a safety toe, and a hard hat if working at the crane.
- **Do not park in the vicinity of a vessel stern ramp.**
- **No speeding:** The terminal speed limit is 20mph.
- **Keep it moving:** Do not loiter in the designated out of truck areas.
